CROP PROTECTION & PLANT NUTRITION

Crop protection helps safeguard crops from diseases, weeds and insects, supporting healthier growth, better crop quality and improved yields throughout the growing season. While Plant nutrition provides crops with the essential nutrients they need for healthy growth and development, helping improve nutrient efficiency, crop quality and overall productivity.

01 / FUNGICIDES

Fungicides play a vital role in protecting crops from fungal diseases that can reduce yield and quality. Our fungicide range offers proven solutions with broad spectrum control, helping crops stay healthy from early growth to harvest.

manzil®

OUR FUNGICIDE SOLUTIONS

A range of effective fungicides formulated to protect crops from harmful diseases and ensure healthier yields.

Fima

Seed Treatment

SEED TREATMENT FUNGICIDE

A seed treatment formulation designed to support seed protection and early crop establishment through a combination of fungicidal and insect protective active ingredients.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Seed Treatment Fungicide	**80 GM**	**Clothianidin + Prothioconazole + Fludioxonil**

KEY BENEFITS

- Supports seed protection during germination
- Helps promote healthier establishment
- Guards from diseases and sucking insects
- Supports stronger early crop stand

COMPOSITION

Clothianidin
Prothioconazole
Fludioxonil
Other ingredients: to make 100%

APPLICATION

Use as recommended by the technical team according to seed type, crop and local agronomic recommendation.

RECOMMENDED CROPS

All Crops

Yifan Shigao

Systemic Fungicide

FUNGICIDE

A systemic fungicide formulated for broad-spectrum disease management in field, fruit and vegetable crops.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Fungicide	**200 ML**	**Picoxystrobin + Propiconazole**

KEY BENEFITS

- Broad-spectrum disease management
- Supports preventive and curative programs
- Systemic action for dependable coverage
- Suitable for professional crop protection programs

COMPOSITION

Picoxystrobin
Propiconazole
Other ingredients: to make 100%

APPLICATION

Apply according to crop requirement, disease pressure and technical recommendation.

RECOMMENDED CROPS

All Crops

Leonis

Fungicide

FUNGICIDE

A fungicide formulated for preventive disease management and healthy crop development under managed crop protection programs.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Fungicide	**180 ML**	**Isoprothiolane + Propiconazole**

KEY BENEFITS

- Supports preventive disease management
- Helps manage sheath emerging Rice Blast, False Smut and Wheat Rust.

COMPOSITION

Refer to registered product label for full composition details.

APPLICATION

Use according to crop stage, disease pressure and technical recommendation.

RECOMMENDED CROPS

Rice and Wheat

Rifle

Fungicide - 18.7% SC

FUNGICIDE

A dual-active fungicide formulation combining azoxystrobin and propiconazole for label-guided crop disease management programs.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Fungicide	**180 ML**	**Azoxystrobin + Propiconazole**

KEY BENEFITS

- Dual-active fungicide formulation
- Effective against Sheath Blight, Blast and Brown Spot in Rice
- Manages Yellow rust, Powdery Mildew and Leaf Blight in Wheat
- Controls early blight, Anthracnose and Powdery Mildew in Vegetables

COMPOSITION

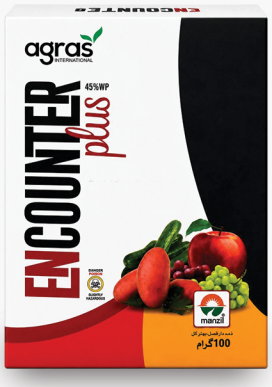
Azoxystrobin
Propiconazole
Other ingredients: to make 100%

APPLICATION

Use according to crop requirement, disease pressure and the final registered product label.

RECOMMENDED CROPS

As per label



Encounter Plus

Protective & Systemic Fungicide

FUNGICIDE

A combination fungicide designed to support broad-spectrum disease management through preventive and systemic action.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Fungicide	**100 G**	**Pyraclostrobin + Tebuconazole**

KEY BENEFITS

- Broad-spectrum control support
- Combined protection against powdery and
- Downy mildew
- Protection against Anthracnose disease

COMPOSITION

Pyraclostrobin
Tebuconazole
Other ingredients: 55% w/w

APPLICATION

Apply according to crop need, target disease and technical recommendation.

RECOMMENDED CROPS

All Crops

Provail

Multi-site Fungicide - 72% WP

FUNGICIDE

A Zinc coated fungicide formulation positioned for reliable crop protection and broad-spectrum disease management.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Fungicide	**250 G**	**Dimethomorph + Propineb**

KEY BENEFITS

- Supports preventive disease management
- Dual active formulation effective for early and late blight, downy mildew and anthracnose

COMPOSITION

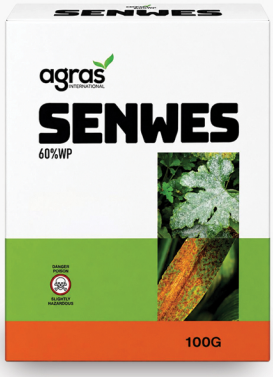
Dimethomorph
Propineb
Other ingredients: to make 100%

APPLICATION

Use as directed according to crop, disease pressure and technical recommendation.

RECOMMENDED CROPS

Vegetable Crops



Senwes

Fungicide - 60% WP

FUNGICIDE

A fungicide positioned for disease management programs where dependable protective performance is required.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Fungicide	**100 G**	**Triadimefon**

KEY BENEFITS

- Supports preventive disease management
- Complete protection against Powdery mildew and wheat rust
- Suitable for professional crop protection programs
- Convenient pack size

COMPOSITION

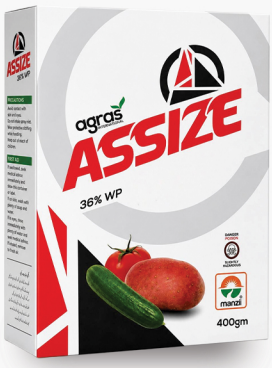
Triadimefon
Other ingredients: to make 100%

APPLICATION

Use according to crop requirement, disease pressure and label guidance.

RECOMMENDED CROPS

Fruits, vegetables & Wheat



Assize

Fungicide - 36% WP

FUNGICIDE

A fungicide combination developed for crop protection programs requiring contact and companion disease management support.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Fungicide	**400 G**	**Chlorothalonil + Cymoxanil**

KEY BENEFITS

- Combination active formulation
- Protection against Early and Late Blight

COMPOSITION

Chlorothalonil
Cymoxanil
Other ingredients: to make 100%

APPLICATION

Apply as recommended according to crop, disease pressure and technical guidance.

RECOMMENDED CROPS

Potato & Vegetable Crops

Harsh

Fungicide - 50% WP

FUNGICIDE

A fungicide combination for professional crop protection programs where dependable disease management is required.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Fungicide	**350 GM**	**Dimethomorph + Mancozeb**

KEY BENEFITS

- Dual active fungicide formulation
- Supports broad-spectrum disease control programs
- Protection against Early and Late blight and
- Powdry mildew

COMPOSITION

Dimethomorph
Mancozeb
Other ingredients: to make 100%

APPLICATION

Apply according to the registered label, target disease, crop stage and technical recommendation.

RECOMMENDED CROPS

Potato & Vegetable Crops

Encounter

Contact Fungicide - 50% SC

FUNGICIDE

A contact fungicide designed to support disease management across a range of horticultural crops.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Fungicide	**400 ML**	**Sulphur + Chlorothalonil**

KEY BENEFITS

- Supports broad-spectrum protection
- Contact action for protective use
- Suitable for managed disease programs
- Sulphur addition acts as a nutrient

COMPOSITION

Sulphur
Chlorothalonil
Other ingredients: to make 100%

APPLICATION

Apply according to crop stage, target disease and technical recommendation.

RECOMMENDED CROPS

Fruit & Vegetable Crops

Zet 2022

Fungicide - 1.5% EW

BACTERICIDE

A new Gen Bactericide formulation positioned for managed crop protection programs and label-guided use.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Bactericide	**200 ML**	**As per label**

KEY BENEFITS

- Specialized active ingredient formulation
- BLB control for Rice
- Supports managed disease protection programs such as citrus diseases
- Use according to registered label guidance

COMPOSITION

As per label

APPLICATION

Use according to crop requirement, disease pressure and the final registered product label.

RECOMMENDED CROPS

As per label

02 / INSECTICIDES

Insect pests can cause significant damage to crops and reduce productivity. Our advanced insecticide solutions are designed to deliver effective control, protect crops and support healthier, higher yielding harvests.

OUR INSECTICIDE SOLUTIONS

Our insecticide range provides reliable and advanced protection against a wide spectrum of pests, helping to safeguard crop health, improve yield and ensure long term productivity.

Ascot

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Ascot supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**80 GM**	**Pymetrozine+Dinotefuran**

KEY BENEFITS

- Supports effective insect management in professional crop programs
- Effective against Jassid, Aphids and Brown rice hopper.

COMPOSITION

As per Label
Other ingredients: to make 100%

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Dreamer

INSECTICIDE

A professional crop protection A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Dreamer supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**120 ML**	**Emamectin Benzoate + Lufenuron**

KEY BENEFITS

- Supports effective insect management in professional crop programs
- Highly effective against bollworms (American and Army)

COMPOSITION

Emamectin Benzoate
Lufenuron
Other ingredients: to make 100%

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Deter

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Deter supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**50 GM**	**Dinotefuran + CTPR**

KEY BENEFITS

- Supports effective insect management in professional crop programs
- All sucking, bollworms and borers

COMPOSITION

Dinotefuran
Chlorantraniliprole
Other ingredients: to make 100%

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Spillo

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Spillo supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**50 ML**	**Methoxyfenozide+CTPR**

KEY BENEFITS

- Supports effective insect management in professional crop programs
- A powerful formulation of lactive against all bollworms

COMPOSITION

Methoxyfenozide
CTPR
Other ingredients: to make 100%

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Boomer

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Boomer supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**400 ML**	**Dimethoate**

KEY BENEFITS

- Supports effective insect management in professional crop programs
- Effective against Jassid, Aphids, thrips and Fruitfly

COMPOSITION

Dimethoate
Other ingredients: to make 100%

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Dire

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Dire supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**200 ML**	**Imidacloprid SL**

KEY BENEFITS

- Supports effective insect management in professional crop programs
- Helps protect plants against Sucking insects

COMPOSITION

Imidacloprid
Other ingredients: to make 100%

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Clasp

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Clasp supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**100 ML**	**Abamectin+Spirodiclofen**

KEY BENEFITS

- Supports effective insect management in professional crop programs
- Helps protect plant growth and yield potential by acting against thrips and mites

COMPOSITION

Active ingredient: as per registered label
Other ingredients: to make 100%

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Rimon

30% sl

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Rimon supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**150 ML**	**Dinotefuran + pyriproxyfen**

KEY BENEFITS

- Effective against Jassid and white fly

COMPOSITION

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Benton

37% SC

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Benton supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**175 ML**	**Bifenthrin + Clothiandin**

KEY BENEFITS

- Jassid + spotted boll worms

COMPOSITION

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Korafin

11.6% SC

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Korafin supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**100 ML**	**Emamectin + CTPR**

KEY BENEFITS

- Fall army and other boll worms

COMPOSITION

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Huizhan

25% SC

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Huizhan supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**200 ML**	**Flonicamid + Clothianidin**

KEY BENEFITS

- Jassid + Aphids + thrips and white fly

COMPOSITION

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Lighter

10% ME

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Lighter supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**120 ML**	**Lambda + emamectin**

KEY BENEFITS

- All boll worms

COMPOSITION

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Tapper

40% EC

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Tapper supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**1000 ML**	**Chlorpyrifos**

KEY BENEFITS

- Special sugarcane pyrilla (Ghora Makhi)

COMPOSITION

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

As per label

Kilter

45% WG

INSECTICIDE

A professional crop protection product formulated for targeted pest management in field, vegetable and orchard programs. Kilter supports healthy crop growth by helping protect crops from damaging insect pressure when used according to the registered product label.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Insecticide	**40 GM**	**Emamectin + Lufenuron**

KEY BENEFITS

- Army worms
- American worms

COMPOSITION

APPLICATION

Use only as directed on the registered product label and technical recommendation. Confirm dose, timing, compatibility and safety guidance before field use.

RECOMMENDED CROPS

03 / FERTILIZERS

Fertilizers play a vital role in supplying essential nutrients required for healthy crop growth and development. Our fertilizer solutions are designed to support balanced plant nutrition, improve crop performance and help achieve healthier, more productive yields.

OUR FERTILIZER SOLUTIONS

A range of carefully formulated fertilizer solutions designed to provide essential nutrients, support vigorous crop growth and promote better yield and quality.

Leafly

Bio-Stimulant - Amino Acid & Plant Growth Regulator

BIO-STIMULANT

A bio-stimulant positioned to support active crop growth, greener foliage and improved crop vitality under managed programs.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Bio-Stimulant	**500 ML**	**Amino Acid + Plant Growth Regulator**

KEY BENEFITS

- Supports vigorous vegetative growth
- Helps improve plant vitality
- Useful during key growth stages
- Easy liquid format for field use

COMPOSITION

Complex Blend of Amino Acid & Plant Growth Regulator

APPLICATION

Use according to crop stage and technical recommendation. Compatible use should be confirmed before tank mixing.

RECOMMENDED CROPS

All Crops

Wick

LIQUID NPK NUTRIENT

A liquid NPK nutrient developed for flexible crop nutrition support during active growth and yield-building stages.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Liquid NPK Nutrient	**1000 ML**	**N 80 g/L, P2O5 80 g/L, K2O 60 g/L**

KEY BENEFITS

- Balanced NPK support in liquid form
  Convenient 1000 ml pack size
- Useful across vegetable and fruit crops
- Supports managed crop nutrition schedules

COMPOSITION

N (Nitrogen): 80 g/L (8% w/v)
P2O5: 80 g/L (8% w/v)
K2O: 40 g/L (4% w/v)

APPLICATION

Recommended dose varies by crop and stage. Use according to the technical program and product label.

RECOMMENDED CROPS

All Crops

Savant

Soil Conditioner - 100% Soluble

SOIL CONDITIONER

A powerful Humic Acid + Potassium formulation that improves soil health, increases organic matter, and enhances nutrient availability. It supports soil reclamation, improves water retention, and creates a healthier root environment for stronger and more productive crops.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Soil Conditioner	**8 KG**	**Humic Acid + Potassium**

KEY BENEFITS

- Helps in soil activation and improves soil fertility
- Enhances soil water-holding capacity
- Increases organic matter in the soil
- Improves availability and uptake of other nutrients
- Supports stronger root development and healthier plant growth
- Helps improve soil structure and microbial activity

COMPOSITION

Humic Acid (H.A): 40% w/w (400 g/kg)
Potassium (K2O): 7% w/w (70 g/kg)
Other ingredients: to make 100%

APPLICATION

Use as recommended by the technical team according to crop, soil condition and growth stage.

RECOMMENDED CROPS

All Crops

Zultus

CROP NUTRIENT

A chelated zinc crop nutrient formulated for efficient micronutrient support across field, vegetable and orchard crops.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Crop Nutrient	**4 KG**	**Chelated Zn EDTA 5% w/w**

KEY BENEFITS

- Helps address zinc nutrition requirements
- Chelated formulation for better availability
- Supports healthy vegetative development
- Useful in balanced crop nutrition programs

COMPOSITION

Chelated Zn EDTA: 5% w/w (50 g/kg)
Other ingredients: to make 100%

APPLICATION

Apply according to crop requirement, deficiency status and label guidance.

RECOMMENDED CROPS

All Crops

Root Grow

80% WDG Sulphur

SPECIALTY FERTILISER

A high-strength sulphur formulation for nutrition programs where sulphur availability is important for crop performance.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Soil Conditioner	**1000 G**	**Sulphur 800 g/kg**

KEY BENEFITS

- Provides concentrated sulphur nutrition
- Supports balanced crop development
- WDG formulation for convenient handling
- Suitable for professional crop programs

COMPOSITION

Sulphur: 800 g/kg, 80% w/w
Inert ingredients: to make 1.2 kg 100% w/w

APPLICATION

Dose and timing should be selected according to crop need and agronomic recommendation.

RECOMMENDED CROPS

All Crops

Fertin

Urea Phosphate 17:44:0

WATER SOLUBLE FERTILIZER

A low-pH acidic fertiliser based on urea phosphate, designed for professional water-soluble nutrition programs.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Water Soluble Fertlizer	**8 KG**	**Nitrogen + Phosphorus**

KEY BENEFITS

- Provides nitrogen and phosphorous nutrition
- Low-pH acidic fertiliser profile
- Supports early growth and root activity
- Useful in fertigation and soluble programs

COMPOSITION

Nitrogen (N): 17% minimum
Phosphorus (P_2O_5): 44% minimum

APPLICATION

Use as directed by crop advisor. Fertigation and foliar use should follow label and water-quality guidance.

RECOMMENDED CROPS

All Crops

Crop Gold

WATER SOLUBLE FERTILIZER

A premium water-soluble fertiliser positioned for high-value crops that require efficient crop nutrition support.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Water Soluble Fertilizer	**10 KG**	**N 10% + P 60%**

KEY BENEFITS

- High phosphorus profile
- Water-soluble formulation
- Supports flowering and crop development programs
- Premium imported positioning

COMPOSITION

Total Nitrogen: 10%
Phosphorus: 60%

APPLICATION

Apply according to crop nutrition program and agronomist recommendation.

RECOMMENDED CROPS

All Crops

K-Leaf

CROP PROTECTION

A potassium-based foliar fertilizer formulated to provide crops with a concentrated source of potassium and sulphur. It contains potassium (K_2O) at a minimum of 50% and sulphur (S) at a minimum of 17.5%, supporting crop nutrition and healthy plant development.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Crop Protection	**2 KG**	**Water-Soluble Potassium**

KEY BENEFITS

- Complete Plant Nutrition
- Healthy Cell Formation
- Improved Sugar Content
- Better Nutrient Efficiency
- Enhanced Drought Tolerance
- It is Chloride free as well

APPLICATION

Use according to final registered product label, crop, target weed, growth stage and technical recommendation.

RECOMMENDED CROPS

Rice, Wheat, Cotton, Vegetables

04 HERBICIDES / WEEDICIDE

Herbicides play a vital role in managing unwanted weeds that compete with crops for essential nutrients, water and sunlight. Our herbicide solutions are designed to provide effective weed control while supporting healthy crop growth and improved productivity.

OUR HERBICIDE / WEEDICIDE SOLUTIONS

A range of effective herbicide solutions formulated to control weeds, protect crop resources and support healthier, more productive fields.

Spot

Herbicide / Weedicide

HERBICIDE

A professional herbicide / weedicide product positioned for crop weed management programs. Use under the final registered label, crop stage and technical recommendation.

CATEGORY	PACK SIZE	ACTIVE INGREDIENT
Herbicide / Weedicide	**800 ML**	**S-Metolachlor**

KEY BENEFITS

- Helps manage target weeds in crop programs
- Complete control against pre-emergence weeds

COMPOSITION

S-Metolachlor
Other ingredients: to make 100%

APPLICATION

Use according to final registered product label, crop, target weed, growth stage and technical recommendation.
